EASTER DISPLAYS

Of Surpassing Beauty at The Right House

It is, after all to The Right House that one goes when all-around GOODNESS is sought. And this Spring, as much as any other, is this coveted confidence justified. For the displays ARE magnificent.

As was remarked recently: "If I were not standing here looking at the merchandise with my own eyes, I would say it were impossible to gather it together and sell it profitably at such prices as yours, considering the turmoil of the markets today."

And looking back over our varied experiences in gathering it to us we are struck with the discovery that we really may have done something out of the ordinary—if we may be permitted to say so ourselves.
